

2014 年 6 月英语六级作文二答案(新东方版)

题目：It is unwise to put all eggs in one basket.

As a common saying goes , “It is unwise to put all eggs in one basket. ” Placing all eggs in one basket means focus all our attention on one thing and fix all our hope on one thing. However, It is wrong and reasonless.

Why placing all eggs in one basket is wrong ? Placing all eggs in one basket tends to reduce the odds of success. By focusing on one thing , people will surely improve their efficiency and proficiency. However, they will also overlook other resources and possibilities , thus , the likelihood of success will be lower. Take Jack, one of my best friends, as a case in point: he started to hunt for jobs in his senior year. Compared with other students who chose different kinds of jobs, he aimed at state-owned firms alone. Unfortunately, getting a decent job in state-owned firms is really hard for him. At last, when others got a job, he was still on the way to his interviews. suppose he choose jobs in a wider range and “place all eggs in different baskets” , he could have gotten a job much easier. Putting all eggs in one basket is unwise, a truth which is applicable to many situations.

As a college student , we should endeavor to master more skills, accumulate different experience and make friends with diverse people.

参考译文：

俗语有云：“把鸡蛋放在一个篮子里是不明智的”。将鸡蛋放在一个篮子里意味着将我们的注意力集中在一件事情上，将我们的所有希望寄托在一件事情上。然而，这是错误且不理智的。

为什么将所有鸡蛋放在一个篮子里是错误的？首先，将鸡蛋放在一个篮子里，往往会减少成功的概率。聚焦一件事情，人们确实会提高效率和熟练程度。然而，人们也会因此忽略其他的资源和可能性，因此成功的可能性反而降低了。比如说，以我最好的朋友之一杰克为例，他在大四那年开始找工作。与其他找不同的工作的同学相比，他只选择国企。不幸的是，在国企找到一份合适的工作着实不易。最终，当别人都找到工作的时候，他还在赶着去面试呢。假设他再更广的范围内选择工作或者说将“鸡蛋放在不同的篮子里”。或许他可以更加容易的找到工作。

将鸡蛋放在不同的篮子里是不明智的，这个真理适用于不同的场合。作为一名大学生，我们应该努力去掌握更多的技能，积累不同的经验以及与不同的人交朋友。
