苏州新东方 程晓

If a foreign friend is coming to visit our campus, I would show him or her our school library and the dinning hall. There are several reasons to account for my recommendations.

First of all, our university is famous for its unique library, which looks like a beautiful flower (lotus) . It is designed by Bei Lvming, a famous designer in the world, as a result of which there are a host of tourists who would like to take a photo in front of it almost everyday. In addition, it also possesses a large number of books, with many students reading in it everyday, thus in which I'm convinced that you can find the book you like too.

Secondly, the dining hall in our school is a wonderful place too. Many delicious Chinese cuisines can be found there, such as noodles, dumplings. You can try cuisines from different places of China in the same dinning hall!

Based on the reasons above, I am sure that my foreign friend will enjoy his or her stay here, with me acting as his or her guider.
