

**Part I** **Writing** **(30 minutes)**

**Directions:** *For this part, you are allowed 30 minutes to write an essay. Suppose you are two options upon graduation: one is to take a job in a company and the other to go to a graduate school. You are to make a choice between the two. Write an essay to explain the reasons for your choice. You should write at least 120 words but no more than 180 words.*

Much controversy has been aroused about whether the students should find a job or start their own business after graduation. Taking a look around, we can find that some graduates bustle around job markets, while others choose to run a shop on TMall. However, I prefer the former choice.

From my perspective, there are good reasons to find a job in the first several years after their graduation. First and foremost, if a graduate intends to accumulate working experience and learn from the seniors, it is advisable for him to find a job. It is an undeniable fact that the theoretical

knowledge will provide the graduates with the ability to consider things comprehensively, however, only under the integration with practice can the rigid knowledge be useful for their future development. Inevitably, doing something small is the premise of undertaking something great. Take Jack Ma, the founder of Alibaba and taobao, for example. He also finds some jobs before establishing his own career, laying a solid foundation for his later success.

Consequently, it is of great necessity to find a job after graduation. I firmly believe that it will continue to bring about more returns to our life and future.

C) oil importers account for a larger portion of the global economy

#### Part IV

#### Translation

(30 minutes)

**Directions:** *For this part, you are allowed 30 minutes to translate a passage from Chinese into English. You should write your answer on Answer Sheet 2.*

在中国文化中，红色通常象征着好运、长寿和幸福。在春节和其他喜庆场合，红色到处可见。人们把现金作为礼物送给家人或亲密朋友时，通常放在红色信封里。红色在中国流行的另一个原因是人们把它与中国革命和共产党相联系。然而，红色并不总是代表好运和快乐。因为从死前者名字通常用红色书写，用红墨水书写中国人名被看成是一种冒犯行为。

As a symbol of good luck, longevity and happiness in

Chinese culture, the colour of red can be seen everywhere on festive occasions such as Chinese New Year. Cash is usually put in red envelopes as gifts to relatives and close friends. Also, red is much-welcomed in China because of its association with Chinese revolutions and the Communist Party. However, red does not always represent good luck and happiness. Red was previously used to write the names of the deceased so it is seen as an offence to write Chinese people' s names in red ink.
